Established 1993

Choosing to install an irrigation system is a great way to help keep your lawn healthy and green. Choosing to have Prairieview Landscaping install the system is a great way to make sure you are getting the highest quality product for your yard. Here are some of the reasons why Prairieview is a great choice for your irrigation needs:

- Prairieview has been in business since 1993
- Fully licensed and insured irrigation company
- Experienced in every brand and type of irrigation system, from residential drip systems to commercial agricultural test plots
- Have a 4 year warranty on all workmanship
- Has a full service department available to answer questions throughout the week
- Have dedicated service technician available to check on any problems, usually within 24 hours
- All irrigation systems are designed using a CAD system
- Three plans are made for every system
 - A Working to insure accurate coverage for all heads
 - An Install to layout valves, lines, and wires
 - An As Built to record the details of how the system is installed
- All heads are designed for 'double coverage' to take into account for the distribution ratio of water over the heads spray profile
- Irrigation systems are designed to maximum coverage and efficiency to help with water conservation and cost savings
- All irrigation systems include a rain sensor (as required by law) to conserve water
- All backflows are installed by a licensed plumber (as required by law)
- Every system includes an As Built plan for our client's record (usually mailed out in the winter)

Sincerely,
Eric L. Sebens
